Liquidity Management in Business and Investing

As an Authorised Fund Manager (AFM), ensuring effective liquidity management in funds is a central responsibility for you, and it remains your responsibility even if you have delegated investment management to another person. Good fund governance ensures the liquidity of your funds' underlying assets is appropriately considered.

04 November 2019 - FCA

Liquidity management is a cornerstone of every treasury and finance department. Those who overlook a firm's access to cash do so at their peril, as has been witnessed so many times in the past. In essence, liquidity management is the basic concept of the access to readily available cash in order to fund short-term investments, cover debts, and pay for goods and services.

What are the objectives of liquidity management? - The ...

Funding liquidity risk is different from market liquidity risk. Funding liquidity risk is the risk that a bank will be unable to pay its debts when they fall due. In simple terms, it is the risk that the bank cannot meet the demand of customers wishing to withdraw their deposits.

Funding Liquidity Risk | The Actuary

Liquidity Funding Risk. Liquidity funding risk is the ability of a financial institution to finance its financial needs when due. Liquidity is different from solvency; a financial institution with a high level of solvency may fall due to lack of liquidity. Factors that may cause liquidity problems in a financial institution include;

Liquidity Funding Risk - AnalystPrep

Despite the increasing regulatory complexity and divergence, treasurers need to monitor how the forthcoming regulatory developments will impact banks’ ability to manage liquidity and funding risk. Global banks need to take steps toward streamlining operations and integrating technology platforms to address the challenges identified.
