Your MX-500P comes with a time-out feature designed to maximize the life of your tip cartridges. The time-out feature works by detecting a load difference at the tip and sensing whether the tip cartridge has been used during the past 25-30 minutes. If

no load change is sensed, the power supply shuts off.

Soldering, Desoldering and Rework System User Guide

Like the STSS-PS2E, the MX-500P is equipped with a ground sensing feature. The AMBER LIGHT illuminates when there is any break in the ground. To reset, turn the power supply off and back on. If the ground has not been re-established, the power supply will remain off.
