Shared Services In Finance And
 Although finance

shared services are often the focus during challenging times to reduce cost or outsource operations, businesses can deliver operational efficiencies and increased productivity by moving to a shared service model. Historically, "back office" finance functions have not been seen as growth drivers or sources of innovation.

Continuous Accounting / Finance Automation / Finance Performance Management. by Jim Buchanan. Financial

shared services have come a long way since they started gaining popularity in the 1990s. Seen as a way to leverage economies of scale for large organizations, shared services centers, or SSCs, made it possible to transfer basic accounting processes like accounts payable, payroll, and purchasing to offshore entities with lower cost structures.

Shared Services in an Age of Finance Transformation ...

Setting up shared service centres (SSCs) can help companies to save money and operate more effectively. However the pros should also be weighed against the cons. The pros. 1. Performance-driven culture. Most

companies do not use KPIs to monitor the activities of internal finance and accounting functions.

Centralization, or shared services, enables businesses to implement a standard or uniform off-the-shelf software package that

can be used by all of their site locations. It creates a standard global chart of accounts, implements standard global processes, and offers centrally controlled procurement, as well as shared services.

Creating a Shared Services Centre in Accounting & Finance ...

"A shared service is a collaborative strategy in which a subset of existing business functions are concentrated into a new, semi-autonomous business unit that has a management structure designed to promote efficiency, value generation, cost savings and improved service for internal customers of the parent organisation, like a business

competing in the open market" (Bergeron, 2003).

Shared Services - What is it?

Definition, Examples and More

The shared services model must be flexible in migrating work into — and out of — the shared services organization, while keeping costs under control and employees engaged and productive. This will be a difficult balancing act, but shared services organizations that succeed will deliver outsize value via the shared services model.
