Circular patterns in the patio layout draw your attention to the firepit in the middle. By using flat rocks, the homeowner has given the design a DIY feel, and the stones match with some of the stones used throughout the garden. What’s especially fun about this patio, though, is the swing hanging by the curved arbor.

50 Best Outdoor Fire Pit Design Ideas for 2020

Planning for fire protection involves an integrated approach in which system designers need to analyze building components as a total package. The design of any fire-protection system is an exact science that takes into account a building’s use, occupancy, footprint, and even its other installed systems. “Fire-protection systems are complicated and sophisticated, and are different for just about every building,” notes Jeffrey E. Harper, engineering manager and vice president at Rolf ...
