Abstract. This paper provides an overview of previous work that has explored issues of social, organizational and corporate identity. Differences in the form and focus of research into these three topics are noted. Social identity work generally examines issues of cognitive process and structure; organizational identity research tends to address the patterning of shared meanings; studies of corporate identity tend to focus on products that communicate a specific image.

Although aspects of social identity theory are familiar to organizational psychologists, its elaboration, through self-categorization theory, of how social categorization and prototype-based depersonalization actually produce social identity effects is less well known. We describe these processes, relate self-categorization theory to social

Social Identity and Self-Categorization Processes in ...

An analysis of the social identity processes involved in organizational mergers suggests that organizational identification after a merger is contingent on a sense of continuity of identity. This sense of continuity, in turn, is argued to be contingent on the extent to which the individual's own pre-merger organization dominates, or is dominated by, the merger partner.
