It is important to remember that every body is different. We all have different genetic and cultural traits. Even if everyone started eating the same things and did the same amount of exercise for a whole year, we would not all look the same at the end of the year. This is because each person's genetic

inheritance influences their bone structure, body size, shape, and weight differently.

## **Everyone is Different, Everyone is Special: Leutenberg ...**

Main Difference – Everyone vs Everybody. Everyone and Everybody are two indefinite pronouns that refer to an unlimited set of people and specific people. These two words are often used interchangeably although there is a slight difference between Everyone and Everybody based on their usage. The main difference between everyone and everybody is that everyone is slightly more formal than everybody and is more used in the written language.
