Oral Facial Evaluation For Speech Language Pathologists ...

Proper form and function of the facial and oral structures is necessary for correct growth and development of the face and mouth, breathing, eating, swallowing, and speech. Presence of an OMD can result in parafunctional habits

that can cause damage to the mouth and negatively affect appearance, speech patterns, tooth development and eating.

Myology Matters

Orofacial myology is a specialized sub-specialty with either speech-language pathology or dentistry,

especially dental hygiene, that evaluates and treats a variety of oral and facial (orofacial) muscle (myo-) postural and functional disorders and habit patterns that may disrupt normal dental development and lead to tooth position changes (malocclusions), or can cause cosmetic problems.
