The skills theory of leadership follows a leader-centred perspective, similar to the traits theory. However, the difference is that the skills approach puts more emphasis on the skills and abilities that can be learned and developed. Developing the skills theory Katz (1955: 34) defined skills as what leaders can accomplish, while traits are what leaders are. He argued that effective leadership ...

The development of modern morality is a process closely tied to sociocultural evolution. Some evolutionary biologists, particularly sociobiologists, believe that morality is a product of evolutionary forces acting at an individual level and also at the group level through group selection (although to what degree this actually occurs is a controversial topic in evolutionary theory).
