Beginning Tonal Dictation *Waveland PressInc*

Sing at First Sight, Level 1

Foundations in Choral Sight-Singing *Alfred Music*

A sequential sight-singing curriculum for all choirs. Each of the six units (containing four lessons each) clearly introduces new music reading concepts, reinforces those concepts with several rhythm and pitch exercises, motivates students with helpful hints and challenge

exercises, and concludes with fun-filled review games and "Evaluating Your Performance" questions. The helpful "Getting Ready" pages (which precede each unit) are filled with music fundamentals, and for choirs who have never read music before, an optional "Before We Begin" chapter opens the book. And it's all a neatly laid out publication and a perfect fit for your students. From whole notes to sixteenth-note patterns, seconds to sevenths, key signatures, dynamics, articulations, and tempo markings; it's all here, and it's all logically ordered to insure student success! Spend just a few minutes a day with this book and your choir, too, will learn to "Sing at First Sight!"

recordings and instructor keys for the exercises, at www.routledge.com/cw/mccarthy Units match the pacing and order of topics in *Theory for Today's Musician*, allowing the texts to be easily used in sync. Beginning with fundamentals and continuing up through twentieth-century materials, *Singing and Dictation for Today's Musician* allows instructors to closely align their teaching of musicianship and aural skills with the written theory curriculum, enhancing student understanding of core music principles.

Sight Singing Complete *McGraw-Hill Education*

Students of music are faced with the challenge of developing their aural skills to the point at which they can see music on the page with thoughtful, trained eyes and hear it with their mind's ear. *Sight Singing Complete*, leads students to this point by beginning with the familiar and moving gently toward the unfamiliar until they are transforming symbol into sound and improvising in all idioms. The 8th edition of *Sight Singing Complete* preserves the multi-faced pedagogical approach and the commitment to historical repertoire from the seventh edition. New to this edition is an integrated approach to rhythm and performance — This edition is unusual in that we not only expect student to master each skill by itself, we also expect them to integrate all three skills in carefully designed sequence of "Play + Sing" exercises adapted from 18th – 21st century instrumental and vocal repertoire.

Cultivating Genius

An Equity Model for Culturally and Historically Responsive Literacy *Scholastic Teaching Resources*

In *Cultivating Genius*, Dr. Gholdy E. Muhammad presents a four-layered equity framework--one that is grounded in history and restores excellence in literacy education. This framework, which she names, Historically Responsive Literacy, was derived from the study of literacy development within 19th-century Black literacy societies. The framework is essential and universal for all students, especially youth of color, who traditionally have been marginalized in learning standards, school policies, and classroom practices. The equity framework will help educators teach and lead toward the following learning goals or pursuits: Identity Development--Helping youth to make sense of themselves and others

Skill Development-- Developing proficiencies across the academic disciplines Intellectual Development-- Gaining knowledge and becoming smarter Criticality--Learning and developing the ability to read texts (including print and social contexts) to understand power, equity, and anti-oppression When these four learning pursuits are taught together--through the Historically Responsive Literacy Framework, all students receive profound opportunities for personal, intellectual, and academic success. Muhammad provides probing, self-reflective questions for teachers, leaders, and teacher educators as well as sampleculturally and historically responsive sample plans and text sets across grades and content areas. In this book, Muhammad presents practical approaches to cultivate the genius in students and within teachers.

300 Progressive Sight Reading Exercises for Clarinet *CreateSpace*

First and foremost: THIS IS NOT A METHOD BOOK. It is precisely what it says it is: 300 Progressive Sight Reading Exercises! Volume One is comprised of 300 progressive eight-bar exercises that cover the keys of C Major, F Major, G Major, A Minor, D Minor and E Minor. Time signatures include 4/4 (Common Time), 3/4, 2/4, 6/8, and 2/2 (Cut Time). The remaining key signatures, additional time signatures, tempo markings and dynamics markings will be covered in future volumes. All of the exercises are eight measures long. If one has done any study of formal analysis, they will find that eight measures is a typical 'period' of music and usually contains two, four-bar phrases (also typical in length). For example, many sonatinas, jazz standards, and pop songs use "32 Bar

Form" (A A B A), "Binary Form" (A B), and "Ternary Form" (A B A), with each section often being eight bars. Thus, eight measures (one period of music) makes the perfect length for sight-reading studies in my opinion. How to use this book: Start where the exercises begin and work across the book - from exercise 1, 5, 9, 13 and so on until you get to a point where the music challenges you and then mark your ending point. The next practice, play exercises 2, 6, 10, 14, and so on... The next: 3, 7, 11, 15 and so on, and finally 4, 8, 12, 16, and so on. If you want to work at your "break point" (the point in the book where you can no longer play musically), work DOWN the page instead of across the pages. Note: This book is also available in a LARGE PRINT version that for printing purposes had to be divided into two books. If you have poor vision or want this book to be easy to SEE on an electronic device, you might prefer the Large Print Version. "These books differ from conventional 'methods' in that technical and theoretical instructions have been omitted, in the belief that these are more appropriately left for the teacher to explain to the student." - Bela Bartok, Mikrokosmos. I whole-heartedly agree with Bartok's sentiment and if music teachers would ask their students what they like least (or hate the most) about typical lessons, it is the method books that win this contest EVERY TIME. I have completely eliminated method books from my own teaching practice and have much happier and more productive students than ever. While this book is intended to train sight-reading skills, it may also be used by beginners or those new to reading to acquire basic reading skills, but it assumes one either has a teacher or can at least find C on their instrument.

It starts at a very basic level (only three notes) and adds a new note, rhythm, or concept every four exercises and thoroughly reinforces them throughout the rest of the book. Next, the music's composition is a slave to its function: The purpose of the books is to train reading skill, and the exercises keep challenging the range that has been established by previous exercises as well as less-than-convenient intervallic skips. They are composed from a 'music-first' perspective, as opposed to an 'instrument-first' perspective, and are purposely composed to be difficult to memorize. For example, the first exercises begin on C because they are in the key of C, and then go on to sometimes start and end on different scale degrees of the same key. Those familiar with the Fundamental Modes will likely recognize what they are hearing, but those unfamiliar with these modes will likely be hearing something that sounds a bit different, or odd, until their ears acclimate to these sounds. I see many students go through this process with altered dominants and augmented triads as well. Additionally, a 20th-century composition technique (Bartok, Stravinsky) - Serial Composition - has also been used on several of the pieces, so if your ears are unfamiliar with this type of music, you might at first be uncomfortable with what you are hearing.

Solfège and Sonority

Teaching Music Reading in the Choral Classroom *Oxford University*

Press

Solfege and Sonority is a guide for teaching music literacy in a choral rehearsal, with a focus on the needs of teachers who work with young singers. The book lays out teaching sequences for melodic and rhythmic concepts, lesson plans, and concise strategies for introducing key techniques. The individual lessons themselves are short (no more than 4-6 minutes each) and comprehensive, encouraging singers to develop a literacy of rhythm and melody together. In 18 easy-to-use lessons for teachers and conductors and tying the lessons to the teacher's current repertoire, longtime choral director and teacher David J. Xiques has created a practical and viable solution to the challenges of many conductors, as well as providing a much-needed manual for upper-level choral pedagogy courses. The comprehensive companion website provides access to videos of exercises, worksheets, and teaching materials.

Teaching Music Theory

New Voices and Approaches *Oxford University Press*

In recent years, music theory educators around the country have developed new and innovative teaching approaches, reintroducing a sense of purpose into their classrooms. In this book, author and veteran music theory educator Jennifer Snodgrass visits several of these teachers, observing them in their music theory classrooms and providing lesson plans that build upon their approaches. Based on three years of field study spanning seventeen states, coupled with reflections on her own teaching strategies, *Teaching Music Theory: New Voices and Approaches* highlights real-life teaching approaches from effective (and sometimes award-winning) instructors from a wide range of institutions: high schools, community colleges, liberal arts colleges, and conservatories. Throughout the book, Snodgrass focuses on topics like classroom environment, collaborative learning, undergraduate research and professional development, and curriculum reform. She also emphasizes

the importance of a diverse, progressive, and inclusive teaching environment throughout, from encouraging student involvement in curriculum planning to designing lesson plans and assessments so that pedagogical concepts can easily be transferred to the applied studio, performance ensemble, and other courses outside of music. An accessible and valuable text designed with the needs of both students and faculty in mind, *Teaching Music Theory* provides teachers with a vital set of tools to rejuvenate the classroom and produce confident, empowered students.
