Development Of Forensic Science And

History and Development of Forensic Science History of Forensic science dates back to the 17th century with Archimedes, who detected fraudulence of a fake golden crown through the principle of density and buoyancy. During the 19th and 20th century it became more popular with a scientific approach.

Introduction to Forensic Science | History and Development ...

In history this time period is considered as the growth and spread of Forensic Science. In the early 1800s where ideas were still at large and developing an English Naturalist named Thomas Bewick used his own fingerprints to identify the books he published. He did this by engraving them in order to identify the books he published.

The History And Development Of Forensic Science

History considers Archimedes (287-212 BC), the man behind the exclamation 'Eureka,' as the father

of forensic science. He had exulted when he had found out that a crown was not made of gold, (as it was falsely claimed) by its density and buoyancy. After Archimedes we come to know of another early forensic science application by Soleiman, an Arabic merchant of the 7th century.

DEVELOPMENT OF FORENSIC SCIENCE THROUGH AGES / HISTORY ...

Forensic Science has a rich but undervalued history and a richer potential ahead. Advancements in forensic science are an ongoing process and each day introduces a new technique into the forensic world. Despite all developments, any investigation still requires a human brain to decipher and rationalize the events of an incident scene. A forensic investigator, at present, has the benefit of numerous tools and medical and scientific advancements at their disposal.
