Within the school environment, these difficulties transfer into a range of school activities (Wang et al., 2009), in particular, handwriting, which is significantly impacted (Miller et al., 2001).

Handwriting Speed in Children with Developmental ...

The DASH and DASH 17+ tests the handwriting speed of a student under four different stresses: copying best, alphabet writing, copying fast and free writing. The sub-test scores for all four can be cumulated in order to derive a standard score with associated percentile. After the administration of a standardised test of handwriting speed you may wish to explore the student's handwriting further using dynamic assessment techniques.
