Chapter 11 - Medical Standards for Aviation Personnel

Nature of the work Occupational physicians visit workplaces and assess a range of work-related health issues. Helping people to stay at work or to return to work following accident or illness is a key part of their role. The work is varied, combining clinical medical practice with the need to influence and shape the behaviour of both individuals and organisations.

Occupational medicine | Health Careers

Introduction. Fatigue is an important factor in aviation, and is associated with sleep loss and shift work. Long duty cycles can cause pilots to become inattentive, careless and inefficient [].Civil aircrew frequently experience loss or disturbance of sleep, transmeridian flight, irregular work–rest cycles and a variety of other job-related factors associated with this problem [].

Prevalence of fatigue among commercial pilots ...

Occupational medicine – often referred to as ‘occupational health’ – refers to the practice of preventing, recognizing and treating work-related illnesses and injuries. Occupational medicine physicians (M.D. or D.O.) have usually completed an occupational medicine residency and/or a Master’s in Public Health (MPH) degree or both.
