This new sixth edition retains its popular delivery of organic chemistry content in a student-friendly format. Janice Smith draws on her extensive teaching background to deliver organic chemistry in a way in which students learn.

Organic Chemistry - McGraw-Hill Education

it's a relatively good book for organic chemistry but I gotta warn you that not all the information in this book is 100% correct like the part about the substitution reactions and their types. (read any other good organic chemistry book and you'll realize what I mean) (planning to read Clayden's book next to be able to compare)

Organic Chemistry by Janice Gorzynski Smith
