Sound Mixing Engineer

A mixing engineer does much more than just 'combine' the tracks. You see mixing is all about context, the way individual elements of the arrangement behave, sound and feel relative to each other, and how that affects the overall experience of the listener. The mixing process can be divided into the following main parts.

Mixing Engineers & Studios | SoundBetter

Mixing engineers, more commonly known as sound, audio or recording technicians or engineers, use recording and sound editing equipment to mix and record audio. Mixing engineers typically have...

Mixing Engineer: Job Description, Duties and Requirements

During the mixing process a mixing engineer does three main things:

Balances the levels of the different recorded tracks, to bring out the important elements in each section and make the song feel cohesive.

Manipulates and enhances the sonic character of different tracks with the help of processors such as EQ and compression.

How to Choose the Right Mixing Engineer

Audio engineers use machinery and equipment to record, synchronize, mix, or reproduce music, voices, or sound effects. They work on the production of movies, music recordings, live shows, or video games. They sometimes work under the job titles "sound engineering technician" and "audio equipment technician."

Audio Engineer Job Description: Salary, Skills, & More

An audio engineer (or a sound engineer) is a trained professional who works with the mechanics of recording, mixing, and reproducing sound. Audio engineers are not the same as sound producers, writers, or performers, as they deal specifically with the technical and the mechanical aspects of music and sound; nothing else.

What does an audio engineer do? - CareerExplorer

An audio engineer (also known as a sound engineer or recording engineer) helps to produce a recording or a live performance, balancing and adjusting sound sources using equalization and audio effects, mixing, reproduction, and reinforcement of sound. Audio engineers work on the "technical aspect of recording—the placing of microphones, pre-amp knobs, the setting of levels.
