As with all types of law, the law of maritime delimitation should possess a degree of predictability. On the other hand, as maritime delimitation cases differ, flexible considerations of geographical and non-geographical factors are also required in order to achieve equitable results. How, then, is it possible to ensure predictability while taking into account a diversity of factors in order to achieve an equitable result? This is the question at the heart of the law of maritime delimitation.

**Boundary delimitation - Wikipedia**

II. Brief history of the development of the law of maritime delimitation. 7. The law of maritime delimitation can be said to have developed in three phases: – A first phase prior to 1958 when the rules of international law governing the delimitation of maritime spaces were not codified. Customary international law only recognized the sovereignty of a coastal State over the waters immediately adjacent to its coast (generally to a distance of 3 nm) – the territorial sea.
