planning global information infrastructure [PDF] Download

policy infrastructure (GII) as a precursor to the emergence of a global information society (GIS); others view a GII concept as providing more emphasis on the economics of development of an information society, while GIS is viewed as providing emphasis on the social aspects of such a society. By placing equal emphasis on GII and GIS, OECD Ministers stressed the necessity of both the economic importance in developing global information infrastructures in terms of creating economic activity ...

GLOBAL INFORMATION INFRASTRUCTURE--GLOBAL INFORMATION ...

GIIC is an independent, non-governmental initiative involving leaders from developing as well as industrialized countries.

GIIC - Global Information Infrastructure Commission

The Global Information Infrastructure Commission (GIIC) is an independent, non-governmental initiative involving information and communications related industry leaders from developing, as well as industrialized, countries. The GIIC was initiated from G7 and World Bank concerns in the mid-1990s regarding the economic impact of a digital divide.

About - GIIC - Global Information Infrastructure Commission

The Internet is considered the de facto global information infrastructure right now. However, for the GII to evolve as envisioned, either the Internet or its successor must deal with challenging issues such as security, privacy, hardware and software compatibility, translation, rights to information, identity management , digital rights management (DRM), competition, and governance.

What is global information infrastructure (GII ...

The overarching goal of the Agenda for Cooperation is to foster the cooperation that will be needed to spur the transformation of a thousand discrete networks into a connected, interoperable global information infrastructure. As all nations take steps to develop and upgrade national information infrastructures, we invite you to join with us in ensuring that the benefits of the GII will be available throughout the world.

THE GLOBAL INFORMATION INFRASTRUCTURE: AGENDA FOR ...

The Clinton Administration believes that a superior GII -- more versatile, fully interactive, with higher capacity, less expensive than existing systems, and more accessible to people around the world -- can and will be built. Text of The Global Information Infrastructure: Agenda for Cooperation. This document sets forth the Clinton Administration's vision for developing a GII that meets the needs of people around the world.

GLOBAL INFORMATION INFRASTRUCTURE (GII)

The Global Information Infrastructure (GII) Architecture was created to deal with the problem of project and programme alignment. Between 2004 and 2009, the custodians of the GII Architecture, the Systems Engineering and Integration Group (SEIG), chose Atkins to provide both technical subject matter experts and management resources to help

Global Information Infrastructure Architecture

An overview of knowledge about the evolution of communication networks towards global information infrastructures. It addresses the issues of networking to solve the interoperability issues in the heterogeneous networks environment.

Global information infrastructure (GII) evolution ...

Once that idea was sold, the scope expanded to be a global information infrastructure (GII). The redesign of U.S. government computer systems integrated into an international, networked system of "governance" will ultimately lead to the demise of the United States as a sovereign nation. High Performance Computing Act of 1991

Global Information Infrastructure - Channeling Reality

An information infrastructure is defined by Ole Hanseth (2002) as "a shared, evolving, open, standardized, and heterogeneous installed base" and by Pironti (2006) as all of the people, processes, procedures, tools, facilities, and technology which supports the creation, use, transport, storage, and destruction of information.

Information infrastructure - Wikipedia

The NII Awards was an awards program designed to recognize excellence and innovation in use of the Internet. The National Information Infrastructure Awards, later known as the Global Information Infrastructure (GII) Awards were given from 1995 though 1999.
