Oliver 620 baler problems - posted in Machinery: I just joined this forum and I apologize for jumping to ask for help right off the bat. But Im in a jam and need help. I have an oliver 620 baler. This spring I took the knotters all apart and got them working. Baled 50 or 60 some bales and it worked perfect. Friday evening I was baling and the baler jammed up (to much hay) so I backed it off ...

Baling Hay With an Antique Oliver Baler - YouTube

Heston bought the oliver baler line and we have bought some new parts for the tying head fron a heston dealer I believe. I'm not positive where we got it but they were able to cross reference some of the parts numbers at our local AGCO dealer. I belive the 710 is about the size of a 620 and we usually use our 770 to power it. We're really happy with the capacity of the baler and it's a lot ...

It is a Hesston 4500 manual, but it is the same baler as an Oliver 720. A little background on why they are the same is that Hesston bought the Oliver brand baler and used that model for three years until they were ready to release the inline models in which they purchased the plans from Moline. Great baler, I have run a thousand bales a year the past two years through the Hesston without ...
