Insurance Risk Management Asset Liability

Insurance companies practice asset-liability management to gain assurance that the risks and rewards of long-term contractual performance guarantees in offered long-term products appropriately reflect their risk appetite. Companies have increasingly adopted the economic approach to measuring and managing risks on both sides of the balance sheet. While this approach represents a theoretically ideal path to managing company risk appetite, evolving and somewhat inconsistent US GAAP and ...

Asset liability management - Risk.net

Asset and liability management is the practice of managing financial risks that arise due to mismatches between the assets and liabilities as part of an

investment strategy in financial accounting. ALM sits between risk management and strategic planning. It is focused on a long-term perspective rather than mitigating immediate risks and is a process of maximising assets to meet complex liabilities that may increase profitability. ALM includes the allocation and management of assets, equity, inte
