Be it indoors, outdoors or other applications, easy to install, energy efficient LED strip lights add character and style to any space without emptying your pockets! LED Drivers & Power Supplies. We stock a complete range of LED drivers including constant current and constant voltage types as well as dimmable led drivers. All are sold with a minimum of 3 years warranty, free delivery and backed up by our no quibble returns policy.

LED Strip | LED Driver | LED Power Supply | LED Light ...

An LED driver is a self-contained power supply which has outputs that are specifically designed to match the requirements of the LED device or devices that it's connected to. To run properly LED lights require a precise balance of current and voltage to deliver the right amount of power. LED drivers fall into two main types; Constant Current and Constant Voltage .
