Plotting coordinates in the first quadrant | Teaching ...

Coordinates are ordered pairs of numbers; the first number indicates the point on the x axis and the second the point on the y axis. When reading or plotting coordinates you always go across first and then up (a good way to remember this is: 'across the landing and up the stairs'). Children start to learn about co-ordinates in Year 5.

The first number is the horizontal coordinate, or the number

along the x axis. The second number is the vertical coordinate, or the number up the y axis. So the coordinate (3,1) means 3 along and 1 up. Often children get their coordinates the wrong way round and go up first and then along, ending up with the coordinate (1,3).
