Screen resolution refers to the clarity of the text and images shown on the screen. At higher resolutions, such as 1600 x 1200 pixels, items appear sharper. They also appear smaller so more items can fit on the screen. At lower resolutions, such as 800 x 600 pixels, fewer items fit on the screen, but they appear larger. Scaling adjusts the size of text, icons, and other user interface elements to make the screen easier for people to see and use.
