I spent some time today continuing my attempts to repair the TS-120v I described in part 1 here. The radio is now usable on SSB on 80/40/20M however it still has no output on 15M and 10M , other faults are a non-functioning S meter and no output on CW. One of the common faults that can cause a none-functioning S meter is the relay on the IF board. There is a well written article on the ...
