new translation with algebraic chess notation *Batsford*

The Art of Checkmate, first published in Monaco in 1947, has remained one of the most popular and enduring chess books of all time, loved by chess players and regularly appearing in top ten lists of their favourites. Remarkably, despite its widespread popularity, the first English edition, published in the 1950s, was marred by careless and faulty translation. But now, for the first time, all these mistakes have been rectified so as to reflect accurately the authors' original work and thereby make the English edition of The Art of Checkmate an even better book. The Art of Checkmate offers the reader a systematic classification of all the principal types of checkmate and the procedures required to achieve these in actual play. Each chapter starts with the basic pattern of the checkmate under consideration and this is followed by an explanation of the process whereby the mate can be carried out. Examples from practical play and test yourself puzzle positions then reinforce the readers' understanding of the mechanics of the checkmate and their ability to deliver crushing and, at times, picturesque checkmates in their own games. An enjoyable and easy-to-read book chess instructor that will benefit players of any ability.

When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.

Chess Tactics Workbook for Kids is the first in a new series of books that help players gain chess skills by tackling hundreds of carefully chosen exercises. The themes are similar to those in Gambit's best-selling 'Chess for Kids' series, but the focus is on getting vital hands-on experience. Many positions build on ones given earlier, showing how advanced ideas are normally made up of simpler ones that we can all grasp. Each chapter introduces a basic theme and features dozens of exercises, with solutions that highlight the key points. In each chapter there are tips on what to look out for to help spot tactical ideas. As the chapters progress, we increasingly see how tactical ideas are combined together, with ideas from previous sections repeatedly appearing as part of a deadly one-two punch. The book ends with a series of six test papers where you are given no clues about the themes involved. Dr John Nunn is one of the best-respected figures in world chess. He was among the world's leading grandmasters for nearly twenty years and won four gold medals in chess Olympiads. In 2004, 2007 and 2010, Nunn was crowned World Chess Solving Champion, ahead of many former champions.

An Idiot-Proof Chess Opening Repertoire *Gambit Publications*

Ever wanted a complete chess opening repertoire - for White and Black - whose basics can be learned in a week? A strategic low-maintenance repertoire that does not require memorizing of long variations, and yet can frustrate both stronger and weaker opponents? In this book, award-winning author Graham Burgess has come up with the ultimate simplified repertoire. But it is not based on boring or unambitious openings. The aim is to avoid symmetry and mass exchanges, and reach an unbalanced middlegame. You won't be dumped into do-or-die tactics where the penalty for forgetting a key move is an instant loss. There are plenty of sharp and aggressive ideas within these pages, but the openings chosen provide a firm and sound base for experimentation. If you forget the critical line and have to make something up at the board, then if you have understood the key strategic themes - which are explained with the use of mini-rules and reminders - then you should get a playable game. As

Black, we choose the slippery Scandinavian and a carefully crafted hybrid of the Slav and QGA. As White it is the English Opening, often with Botvinnik set-ups that will give our opponents fits! These will become your special lines, where you will know and understand more than most players, even much stronger ones. Graham Burgess has written 28 chess books, including three on opening play for the 'Chess for Kids' series. He is a FIDE Master and a former champion of the Danish region of Funen, and in 1994 set a world record for marathon blitz chess playing.

that pivots from the biggest questions about American history and ideals to the most intimate concerns of a father for his son, Ta-Nehisi Coates offers a powerful new framework for understanding our nation's history and current crisis. Americans have built an empire on the idea of "race," a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates's attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bracingly confronts our present, and offers a transcendent vision for a way forward.

The Other Barack

The Bold and Reckless Life of President Obama's Father *PublicAffairs*

The life story of the father of the most powerful elected leader in the world is an epic tale, one as daring as it was improbable. The father of the U.S. president, the first Barack Hussein Obama, was born in rural poverty in Kenya. His own father was a dominating figure who worked as a cook for the British colonists and broke with Luo

tradition when he converted to the Muslim faith. Their household was a severe one from which Barack's mother fled in fear for her life. Despite such domestic turmoil, Barack was as fiercely smart as he was intrepid. Admitted to one of Kenya's premiere private schools, he was later thrown out for his defiant behavior. Adrift in the political churning of Kenya's pre-independence days, Barack attracted the interest of an American literacy worker who took him under her wing. By day, they worked on the literacy primers that would change the lives of illiterate Africans. By night, they often went dancing in the full glare of disapproval of those racially segregated times. She helped him prepare for college in America and in 1959 paid his first year's tuition at the University of Hawaii. The first African student on the UH campus, Barack stood out in many respects. One of those was the young white woman, Ann Dunham, whom he began to date. A year after they met, the couple had a son named Barack Hussein Obama II. Barack did not tell his young wife about the two children he had left behind in Kenya, nor did he tell university authorities about his family back home until much later. Luos were often polygamous and Obama saw no need to part with custom. At Harvard University, Barack joined the academic elite and prepared to take his place among the big men in newly independent Kenya. But Barack's experience at Harvard was emblematic of a life that seesawed between high hopes and cruel frustrations, many of them self-inflicted in drunken furies. Yet the charm, the intellectual brilliance, and the fierce pride in his vision of independent Kenya never flagged. He was a bold and reckless man, whose life courted controversy and ultimately

veered fatally out of his control. He was heroic in his ambition, deeply flawed, and, extraordinarily, the father of an American president, the other Barack.
