Supply Chain Management A Global

In commerce, global supply-chain management is defined as the distribution of goods and services throughout a trans-national companies' global network to maximize profit and minimize waste. Essentially, global supply chain-management is the same as supply-chain management, but it focuses on companies and organizations that are trans-national. Global supply-chain management has six main areas ...

Global supply chain management - Wikipedia

A global supply chain utilises low-cost country sourcing and refers to the procurement of products and services from countries with lower labour rates and reduced production costs than that of the home country. A global supply chain will usually flow from your own organisation in your home country as a buyer across your supplier tiers; it is these suppliers who will be located in other areas of the globe.
