The Myth of the Rational Voter | Princeton University Press

In The Myth of the Rational Voter, Bryan Caplan presents a noteworthy challenge to a view that prevails among economists who study political behavior and political scientists who employ rational-choice theory—namely, that the average voter in a modern, democratic nation rationally chooses to remain largely ignorant about the options presented to him in an election. The reason his ignorance is rational, according to this common understanding, is that the costs of his becoming a well ...
