Microsoft Graph indeed comes with high-level interfaces and endpoints to perform business intelligence data analysis.

Microsoft Graph API Tutorial & Examples, MS graph Tutorial ...

By Deborah J. Rumsey . A bar graph (or bar chart) is perhaps the most common statistical data display used by the media. A bar graph breaks categorical data down by group, and represents these amounts by using bars of different lengths. It uses either the number of individuals in each group (also called the frequency) or the percentage in each group (called the relative frequency).
