Where The Stars Still Shine

`Where the Stars Still Shine' is the new contemporary young adult novel from a hot new talent in the readership, Trish Doller. I fell for Trish Doller and her gritty teen stories with debut novel `Something Like Normal', which absolutely bowled me over.

Like many contemporary novels, *Where the Stars Still Shine* embodied a young girl named

Callie adjusting to her new life, one with a constant, one without her mother, one with friends and family and love. Ripped from her mother, her life of constant fleeing, and reunited with her family, we immediately had an interest.

Where the Stars Still Shine is an emotional novel that doesn't shy away from some intense issues. It examines the after effects of sexual abuse and how they affect relationships throughout the course of a victim's life. I found it to be an honest and realistic read that I highly recommend to contemporary YA fans.
