Soap Making: Homemade Organic Soap Making Made Simple and ...

You need only heat it until it melts and no further (exceptions to this rule are the Natural or Organic bases which should be heated to 75degC to avoid 'blooming' in the finished soaps). Cutting the soap base into small chunks will help this, especially if using a microwave, although small chunks will melt far easier with any method used, so it's worth the time in doing this.

Melt And Pour Soap Guide - UK Soap Making Ingredients

Natural preservatives are those that can be used in products with a “natural” or “organic” certification because they use ECOcert certified ingredients. (There are other similar certifications, but for the sake of keeping things simple, I chose one and stuck with it.)
