...

Occupational therapy helps older people stay at home. A multidisciplinary approach to health care is recognised as helping to reduce the numbers of hospital admissions amongst older patients, instead enabling people to stay independent and in the comfort of their own homes into later life. There are steps we can take to make the home safer and easier to get around as we get older, whether this is opting for a rise and recline chair or installing lower shelves that are easier to reach.

Occupational therapy helps older people stay home

Occupational therapy is a treatment aimed at helping disabled (physically and/or mentally), sick, and handicapped people, whether elderly, kid, or a person of any age group. The OT practitioners develop plans for the recovery and development of these people across the lifespan. The techniques and procedures used in the therapy vary according to the disability.
