Abstract. Global computer-based communications cut across territorial borders, creating a new realm of human activity and undermining the feasibility--and legitimacy--of applying laws based on geographic boundaries. While these electronic communications play havoc with geographic boundaries, a new boundary, made up of the screens and passwords that separate the virtual world from the real world of atoms, emerges.

Lawless Clans. Border history may well have been dominated by the political struggle between England and Scotland, but it would be wrong to assume that the story of the Borderland was always a saga of Englishman against Scot and vice versa. In Tudor and Elizabethan times the Anglo-Scottish Border counties, including Northumberland, were the home to the notorious Border Reivers, the lawless clans of the border valleys, where a lifestyle of raiding

and marauding was the only way to survive.
