Introduction To Fundamentally Weighted Index Investing

A fundamentally weighted index, or fundamental index, is one in which the equity components were chosen based on criteria other than

market capitalization.

Fundamentally Weighted Index Definition

Praise for the fundamental index.

"The Fundamental Index® method is a controversial financial innovation in the field of passive investing, but this book confronts the whole range of controversy head on. The case for use of the Fundamental Index method and against cap-weighted indexes is uncommonly lucid, well illustrated, and attention-grabbing.

...

Fundamental indexing simply costs more than capitalization-weighted indexing. The funds are not as large, and thus do not benefit as much from economies of scale. Rather than rebalancing automatically as a cap-weighted index does, a fundamental index must be rebalanced from time to time, incurring additional transaction (and tax) costs.

Fundamental Versus Cap Weighted Index

Funds

It turns out that when you use the fundamental index methodologies to create an index, the net effect is to (1) lower the average size of the companies in the index relative to a market capitalization methodology, and (2) increase the value tilt of the companies in the index relative to a market capitalization methodology.
