Solutions - North Thurston Public Schools

Solutions are spoken of as having two components, the solvent,
 and the solute. Another classification of the solution depends on
 the amount of solute added to the solvent. A dilute solution
 contains a small amount of solute in a large amount of solvent. A
 concentrated solution contains a large amount of solute dissolved
 in a small amount of solvent.

Types of Solutions - Different Types, Homogeneous ...

A solution is defined as a chemically and physically homogeneous
 mixture of two or more substances. Homogeneous is a term used
 to imply that a mixture is uniform; that is, all the parts are
 identical. When subjected to routine chemical and physical
 analysis, the parts test the same. A binary solution is a mixture of
 only two components.
