How The World Works

Noam Chomsky's How the World Works (HWW) has an awfully high-falutin' title, but it seems to be quite accurate in describing the content. HWW is actually a collection of four abridged books, some of which are interviews with Chomsky, others of which are books that had been written by Chomsky. If there's one basic theme for the book, it is this truism: that governments and large businesses operate in their own interests and not in the interests of the people they are supposed to serve.

How the World Works by Noam Chomsky | Waterstones

Paul Cockshott's How the World Works is an important contribution to historical materialism, complementing Marx and Engels's classic analyses of labour and wealth with a systematic account of how economies and societies are shaped by energy sources and technologies. With a strong focus on transitions from early societies to contemporary capitalism, Cockshott's dispassionate appraisal of "actually existing socialism" and sober exploration of plausible communist futures offer ...
