Knowledge of Self

A Collection of Wisdom on the Science of Everything in Life

Supreme Design Publishing

Do you know who - and what - you are?

Do you know who you're meant to be?

Do you know how to find the answers to

questions like these? Knowledge of Self is the result of a process of self-discovery, but few of us know where to begin when we're ready to start looking deeper. Although self-actualization is the highest of all human needs, it is said that only 5% of people ever attain this goal. In the culture of the Nation of Gods and Earths, commonly known as the Five Percent, students are instructed that they must first learn themselves, then their worlds, and then what they must do in order to transform their world for the better. This often intense process has produced thousands of revolutionary thinkers in otherwise desperate environments, where poverty and hopelessness dominate. Until now, few mainstream publications have captured the brilliant yet practical perspectives of

these luminary men and women. Knowledge of Self: A Collection of Writings on the Science of Everything in Life presents the thoughts of Five Percenters, both young and old, male and female, from all over the globe, in their own words. Through essays, poems, and even how-to articles, this anthology presents readers with an accurate portrait of what the Five Percent study and teach, as well as sound direction on how to answer timeless questions like: Who am I, and why am I here? Why is there so much injustice in the world, and what can be done about it? Who is God and where on Earth is he? How do I improve myself without losing myself? Why are people of color in the situations they're in? What can we do about the global problems of

racism and poverty?

The True History of Allah and His 5%

The Greatest Story Never Told by the Gods & Earths Who Were There!

Xlibris Corporation

This book is based on the true history of

Allah "the Father" and His great Nation of Gods and Earths known as the Five Percenters. This is the greatest story that was never told by the Gods and the Earths during their younger years with Allah "the Father" from the early 1960s up until the time of his assassination on June 13, 1969. This was a time of struggle for the Black Man, Woman, and Child (the Universal Family). This was the time of "the Big Five", who were: Allah "the Father", who brought about the Nation of Gods and Earths known as the Five Percenters; the Honorable Elijah Muhammad, who was the last and greatest messenger of Allah, also the leader and teacher of the Black Muslims; Malcolm X of the new arrival; Dr. Martin Luther King, Jr., the civil rights leader; and the Black Panther Party on the East

and West coasts. These five groups were called the Big Five, because they had the attention of every Black Man, Woman, and Child in the wilderness of North America and other parts of our planet. There was a host of other Black groups as well. This was a time when the Five Percenter's teachings were being taught/spoken so plain and simple that even a child could understand. Black people were on the rise, and it was a time for a change—for Black Man, Woman, and Child to take their place on earth. Peace!

The Culture Is I-God I & II *Lulu.com*

The Five Percent Nation are the Gods & Earths a Nation created by Allah the Father in the years 1963 thru 1969 (Allah the Father left the NOI and in "63"

the first borne are lifted up into the Knowledge of Self, by 1964 there are 500 young Five Percent Brothers). Born Justice: "Peace God, Allah The Father, left Temple number 7 in 1963, First Born Prince and God Supreme say the same thing, Peace; He was teaching in the Temple in 1963 and left in June or July He was there for three an one half years 1960-1963. All men lie when they are afraid. Some tell many lies, some but a few. Some have only one great lie they tell so often that they almost come to believe it...though some small part of them will always know that it is a lie, and that will show up on their many faces.

Lessons of the Gods and Earths**In the Name of Allah**

A History of Clarence 13x (Allah) and the Five Percenters *A-Team Pub Incorporated*

The Case for God *Knopf Canada*

From the bestselling author of *A History of God* and *The Great Transformation* comes a balanced, nuanced understanding of the role religion plays in human life and the trajectory of faith

in modern times. Why has God become incredible? Why is it that atheists and theists alike now think and speak about God in a way that veers so profoundly from the thinking of our ancestors? Moving from the Paleolithic Age to the present, Karen Armstrong details the lengths to which humankind has gone to experience a sacred reality that it called God, Brahman, Nirvana, Allah, or Dao. She examines the diminished impulse toward religion in our own time when a significant number of people either want nothing to do with God or question the efficacy of faith. With her trademark depth of knowledge and profound insight, Armstrong elucidates how the changing world has necessarily altered the importance of religion at both societal and individual levels. And she

makes a powerful, convincing argument for structuring a faith that speaks to the needs of our dangerously polarized age.

The City of God

Paradise Lost

STFU Pronounced SI-TU-FU

The Nation of Gods & Earths Speaks for Itself *Independently Published*

As the Nation born from the mind of Allah God himself our job is to teach the world the same way Allah taught us. This book, STFU [SI-TU-FU], and its title is a directive providing good orderly direction to those who would attempt to deny our legitimate choice of a God Centered Culture Path to God and NOT a

religious one. We are not a slave to religion or any religious concept of God. We still live in the country our ancestors were enslaved in fighting for equality of treatment according to the law. We fight for our freedom when government and religious forces illegally subject us to persecution and theological discrimination. We know our inalienable right to the God of our understanding is not just constitutional, civil, or human it is our Natural right. What God has built let no man tear asunder. Thus this Book Title is the war cry in this literary battle against those seeking to delegitimize, criminalize, bastardize, or marginalize the Reality of God we live and love. The Nation of Gods and Earths aka the Five Percent speak for and define ourselves. In the beginning was the word and the

word was with God and we have but one word for all Black God deniers and it is STFU! Born King Allah born and raised in NYC is a Cultural warrior has been a builder in the NOGE since our golden era of the 1970's. In the cause of Black struggle he's worked with Sonny Carson, Rev. Al Sharpton and is most proud of his work with Dr. Khalid Muhammad. Always bringing the voice of the NOGE to the general public he was an opening speaker for Khalid on more than one occasion. He is the founder of the NOGE National Conference which led to our Regionalization Process. He is the Managing editor and writer for the Five Percenter Newspaper for over 16 years, as well as contributing to other publications including the Source. He is the Co-Founder of the National Office of

Cultural Affairs (NOCA) which to date has won freedom for the NOGE in 16 different states. In October 2004 he took his idea and executive produced the NOGE 50th Year Anniversary God and Hip Hop weekend and Show at the World Famous Apollo Theater in Harlem NYC. pleasures of knowing God."

The Supreme Understanding

The Teachings of Islam in North America *iUniverse*

The Supreme Understanding is a breakthrough reference guide being the first ever to lift the veil of mystery from three of the most powerful, and yet least accredited, Islamic movements in North America over the last century. Abdul Noor brings an innovative angle to what most like to overlook as fly by night fanatic societies. The Moorish Science Temple of North America, The Nation of Islam and The Nation of Gods and Earths from their inception have had a profound impact on the diasporic descendents of the motherland, and this work finally

accentuates these monumental accomplishments. The strength of this resource lies in the combination of actual lessons taught by each of these organizations, essays and plus degrees written by members and former members of these organizations and a historical perspective on each written eloquently by the author of this work putting into perspective the times that these great movements were coming to fruition in the world of lost souls and forgotten pasts. Included in this historical narrative are such topics as: The origin of the Black and White race. The undeclared birthright as deemed by Moorish descendents. The nature of the Earth. The composition of the Mind. The modern day caves. This invaluable collection takes a much

needed first step in the direction of understanding the truth of a culture and heritage long hidden from the sons and daughters who need it most.

The Writing of the Gods

The Race to Decode the Rosetta Stone *Simon and Schuster*

The surprising and compelling story of two rival geniuses in an all-out race to decode one of the world's most famous documents—the Rosetta Stone—and their twenty-year-long battle to solve the mystery of ancient Egypt's hieroglyphs. The Rosetta Stone is one of the most famous objects in the world, attracting millions of visitors to the British museum every year, and yet most people don't really know what it is. Discovered in a

pile of rubble in 1799, this slab of stone proved to be the key to unlocking a lost language that baffled scholars for centuries. Carved in ancient Egypt, the Rosetta Stone carried the same message in different languages—in Greek using Greek letters, and in Egyptian using picture-writing called hieroglyphs. Until its discovery, no one in the world knew how to read the hieroglyphs that covered every temple and text and statue in Egypt. Dominating the world for thirty centuries, ancient Egypt was the mightiest empire the world had ever known, yet everything about it—the pyramids, mummies, the Sphinx—was shrouded in mystery. Whoever was able to decipher the Rosetta Stone, and learn how to read hieroglyphs, would solve that mystery and fling open a door that

had been locked for two thousand years. Two brilliant rivals set out to win that prize. One was English, the other French, at a time when England and France were enemies and the world's two great superpowers. The Writing of the Gods chronicles this high-stakes intellectual race in which the winner would win glory for both himself and his nation. A riveting portrait of empires both ancient and modern, this is an unparalleled look at the culture and history of ancient Egypt and a fascinating, fast-paced story of human folly and discovery unlike any other.

Complete Dictionary of Supreme Wisdom Lessons

In the Name of Allah *A-Team*

Publishing; New Revised Edition

In The Name Of Allah: A History of Clarence 13X and The Five Percenters is the first definitive history ever written about this powerful youth movement. Thousands of young Blacks and Latinos have pledged allegiance to the philosophy of the Five Percenters. Their influence has permeated throughout the streets of urban America, the school system, rap music and the penal institutions. The origins of the Five Percenters can be traced to its founder the late Clarence 13X Smith a.k.a. "Allah." A former member of Elijah Muhammad's Nation of Islam, he studied under Minister Malcolm X at the Harlem Mosque in the early 60's. He left the organization and subsequently founded a youth movement based on the core

doctrine of the NOI and his own lessons referred to as "Supreme Mathematics" and "Supreme Alphabets." The name and ideology of the Five Percenters are derived from NOI teachings that describe the population into three categories. The 85% are misled to believe in a "mystery god," the 10% teach lies to master the poor and superstitious, and alas the 5% are the "poor righteous teachers" of "freedom, justice and equality" who teach that the true and living God is the "Black Man of Asia." During his short reign as leader of the Five Percenters, Clarence 13X (Allah) faced many challenges but accomplished many objectives. Unfortunately in June of 1969, he was gunned down by unknown assassins. He left a legacy of countless youth who embraced the concepts of the

Five Percenters which are evident in the conscious youth of today that identify with his teachings. Until now, there has yet to be a comprehensive history written in regard to the man called Allah and the Five Percenters. This information has now been compiled and presented as an anthology by a member of the movement over the past 25 years. "In The Name of Allah: A History of Clarence 13X and the Five Percenters" is a must have for anyone who desires to know more about the controversial movement.

The God Delusion. 10th Anniversary Edition *Random House*

The God Delusion caused a sensation when it was published in 2006. Within weeks it became the most hotly debated topic, with Dawkins himself branded as

either saint or sinner for presenting his hard-hitting, impassioned rebuttal of religion of all types. His argument could hardly be more topical. While Europe is becoming increasingly secularized, the rise of religious fundamentalism, whether in the Middle East or Middle America, is dramatically and dangerously dividing opinion around the world. In America, and elsewhere, a vigorous dispute between 'intelligent design' and Darwinism is seriously undermining and restricting the teaching of science. In many countries religious dogma from medieval times still serves to abuse basic human rights such as women's and gay rights. And all from a belief in a God whose existence lacks evidence of any kind. Dawkins attacks God in all his forms. He eviscerates the

major arguments for religion and demonstrates the supreme improbability of a supreme being. He shows how religion fuels war, foments bigotry and abuses children. The God Delusion is a brilliantly argued, fascinating polemic that will be required reading for anyone interested in this most emotional and important subject.

The Wu-Tang Manual *Penguin*

The Wu-Tang Manual is The RZA's first written introduction to the philosophy

and history of Hip-Hop's original Dynasty, the Wu-Tang Clan. Written in a style that is at once personal and philosophical, The Wu-Tang Manual unravels the intricate web of personalities (and alter egos), warrior codes, numerological systems, and Eastern spiritual ethics that define the Wu-Tang dynasty. Packed with information that reflects the breadth and depth of the RZA's — and rest of the Clan's — intellectual interests and passions, The Wu-Tang Manual is divided into four books of nine chambers each, for a total of 36 chambers. All together, the book provides the breakdown of essential Wu-Tang components, from basic information about each of the nine core members of Wu-Tang Clan to deeper explorations of the key themes of

the Wu-Tang universe, a dictionary-like Wu-Slang lexicon, and an entire section of Wu-Tang lyrics with densely annotated explanations of what they mean. For the hardcore Wu-Tang disciple and the recent initiate alike, The Wu-Tang Manual is the definitive guide to the essence of Wu, one of the most innovative hip-hop groups of all time. The RZA's most recent book, The Tao of Wu, is also available from Riverhead Books.

Dogmatic Constitution on Divine Revelation

Dei Verbum

This document's purpose is to spell out the Church's understanding of the nature of revelation--the process whereby God communicates with human beings. It touches upon questions about Scripture, tradition, and the teaching authority of the Church. The major concern of the

document is to proclaim a Catholic understanding of the Bible as the "word of God." Key elements include: Trinitarian structure, roles of apostles and bishops, and biblical reading in a historical context.

The Tao of Wu *Penguin*

From the founder of the Wu-Tang Clan—celebrating their 25th anniversary this year—an inspirational book for the hip hop fan. The RZA, founder of the Wu-Tang Clan, imparts the lessons he's learned on his journey from the Staten Island projects to international superstardom. A devout student of knowledge in every form in which he's found it, he distills here the wisdom he's acquired into seven "pillars," each based on a formative event in his life—from the

moment he first heard the call of hip-hop to the death of his cousin and Clan-mate, Russell Jones, aka ODB. Delivered in RZA's unmistakable style, at once surprising, profound, and provocative, *The Tao of Wu* is a spiritual memoir the world has never seen before, and will never see again. A nonfiction Siddhartha for the hip-hop generation from the author of *The Wu-Tang Manual*, it will enlighten, entertain, and inspire.

The Nation of Gods and Earths

The book has a lot of history and science in it. The book will open your mind to a lot of things you didn't know and it is extremely high in intelligence.

The Obstacle Is the Way

The Timeless Art of Turning Trials into Triumph *Penguin*

#1 Wall Street Journal Bestseller The Obstacle is the Way has become a cult classic, beloved by men and women around the world who apply its wisdom to become more successful at whatever they do. Its many fans include a former governor and movie star (Arnold Schwarzenegger), a hip hop icon (LL Cool J), an Irish tennis pro (James McGee), an NBC sportscaster (Michele Tafoya), and the coaches and players of winning teams like the New England Patriots, Seattle Seahawks, Chicago Cubs, and University of Texas men's basketball team. The book draws its inspiration from stoicism, the ancient Greek philosophy of enduring pain or adversity with perseverance and

resilience. Stoics focus on the things they can control, let go of everything else, and turn every new obstacle into an opportunity to get better, stronger, tougher. As Marcus Aurelius put it nearly 2000 years ago: "The impediment to action advances action. What stands in the way becomes the way." Ryan Holiday shows us how some of the most successful people in history—from John D. Rockefeller to Amelia Earhart to Ulysses S. Grant to Steve Jobs—have applied stoicism to overcome difficult or even impossible situations. Their embrace of these principles ultimately mattered more than their natural intelligence, talents, or luck. If you're feeling frustrated, demoralized, or stuck in a rut, this book can help you turn your problems into your biggest advantages.

And along the way it will inspire you with dozens of true stories of the greats from every age and era.

On the Christian Meaning of Human Suffering

Published on February 11, 1984, Salvifici Doloris addresses the question of why God allows suffering. This 30th anniversary edition includes the complete text of the letter plus commentary by Myles N. Sheehan, SJ, MD, a priest and physician trained in geriatrics with an expertise in palliative care. Acknowledgments of recent episodes of violence bring the papal document into a modern context. Insightful questions suited for individual or group use, applicable prayers, and ideas for meaningful action invite

readers to personally respond to the mystery of suffering.

The Management Style of the Supreme Beings *Hachette UK*

'Highly amusing ... Eloquently snarky prose' - Publishers Weekly 'Inventively entertaining ...make you both laugh out loud and stop and think' - SFX When the Supreme Being and his son decide that being supreme isn't for them any more, it's inevitable that things get a bit of a shake-up. It soon becomes apparent that our new owners, the Venturi brothers, have a very different perspective on all sorts of things. Take Good and Evil, for example. For them, it's an outdated concept that never worked particularly well in the first place. Unfortunately, the sudden disappearance of right and

wrong, while welcomed by some, raises certain concerns amongst those still attached to the previous team's management style. In particular, there's one of the old gods who didn't move out with the others. A reclusive chap, he lives somewhere up north, and only a handful even believe in him. But he's watching. And he really does need to know if you've been naughty or nice. What would happen if good and evil were replaced with a more dynamic system based on sound economic principles?
