WIDE Inequalities in Education | Global Education ...

How the Global Inequality Gap Has Changed In 200 Years. What makes a person healthy, wealthy, and wise? The UN's Human Development Index (HDI) measures this by one's life expectancy, average income, and years of education. However, the value of each metric varies greatly depending on where you live.

The Global Inequality Gap, and How It's Changed Over 200 Years

Stratified higher education systems mirror and reproduce social hierarchies. Though participation is growing everywhere, the top universities are captured by the upper middle class, the group with the most global options. At the same time, the culpability of WCUs for inequality should be kept in proportion.

The new politics of higher education and inequality

The breakdown by age gives us a view into the future: as the inequality is lower among today's younger generations, we can expect the decline of inequality to continue in the future. Thus, further reductions in education inequality are still to be expected within developing countries; and if the expansion of global education can be continued, we can speed up this important process of global convergence.

Educational Mobility and Inequality - Our World in Data

The rate of acceptance from wealthy communities is rising at a faster rate than from disadvantaged communities, therefore

accelerating inequality in higher education. The progress made in getting disadvantaged students into university has largely only had an impact in less established universities, with high tariff institutions being further behind the pack in diversifying their applicants.

Inequality in the UK higher education system - Global ...

Global Inequalities and Higher Education seeks to examine how universities operate within a context of global inequality. The relationship between the university as an international institution and the process of globalization is an ambivalent one.

Buy Global Inequalities and Higher Education .. in Bulk

Therborn's equality/inequality framework is then used to interrogate this increasingly online Higher Education (HE) landscape using three types of inequality: vital inequality, resource inequality and existential inequality. Vital inequality shows how educational inequality is a life-and-death issue.
