Abstract. This is the first book to introduce the new statistics - effect sizes, confidence intervals, and meta-analysis - in an accessible way. It is chock full of practical examples and tips on how to analyze and report research results using these techniques. The book is invaluable to readers interested in meeting the new APA Publication Manual guidelines by adopting the new statistics - which are more informative than null hypothesis significance testing, and becoming widely used in ...

Cumming, G. (2012). Understanding the new statistics ...

Leading scholars in psychology and other disciplines are striving to help scientists enhance the way they conduct, analyze, and report their research. They advocate the use of "the new statistics" — effect sizes, confidence intervals, and meta-analysis. APS's flagship journal, Psychological Science, has been inviting authors to use the "new statistics" as part of a comprehensive effort to enhance research methodology.
