A case study is a detailed study of a specific subject, such as a person, group, place, event, organization, or phenomenon. Case

studies are commonly used in social, educational, clinical, and business research. A case study research design usually involves qualitative methods, but quantitative methods are sometimes also used.

### **How to Do a Case Study | Examples and Methods**

Case studies capture a range of perspectives, as opposed to the single view of an individual you get with a survey response or interview. This gives the opportunity to gain a greater understanding of the subject in hand and reduces the potential for any bias, by diluting the agenda of a particular individual.
