In 1984 in response to the findings at Kesterson Reservoir, the San Joaquin Valley Drainage Program (SJVDP) was established to investigate drainage and drainage-related problems and to develop possible solutions. SJVDP initially investigated all drainage management options including out-of-valley drainage disposal.

Agricultural Drainage in the San Joaquin Valley

Most soil salinization in the Imperial and San Joaquin Valleys results from the presence of shallow saline water tables, but salinization can also be caused by saline irrigation water coupled with poor irrigation management. Salinity problems also exist in other areas of the state.

A SALINITY AND DRAINAGE

The balance of salts is often determined on the basis of the salt load of the applied water and that of the subsurface drainwater

discharge. But besides saline rootzone waters, subsurface drainage systems in the San Joaquin and Imperial valleys collect saline waters from deeper in the soil.

Salinity (salts) has been an increasing problem in many areas since the early 1990's. Excessive rainfall and poorly drained soils are a bad combination. These two factors are a big part of the reason salinity is increasing in our region. As the water table gets closer to the surface in wet years, water is wicked to the surface.

The salinity problem on the west side of the San Joaquin Valley is partly attributed to the continuous presence of a low-permeability Corcoran clay layer (), ranging in depths from ≈ 30 m near the San Joaquin River in the east to a depth of ≈ 250 m in the west, thereby largely defining the regional hydrology. To lower the water tables, subsurface drainage systems were installed to intercept ...

significant portion of the bulk salinity in the water. This is because calcium and magnesium tend to precipitate out of the soil solution as the soil dries. Plants can often tolerate higher

salinity levels in climates with low evapotranspiration demands, such as near the coast. Also mature plants are usually more tolerant to salinity than seedlings.
