You will be introduced to the three “pillars” of EW: Electronic Attack (EA) systems, Electronic Protection (EP) techniques, and Electronic Support (ES). An EW engagement model will be developed to illustrate the interaction between

radar and jamming signals and the impact in radar detection and tracking. In addition, several EA techniques will be introduced and modeled, and the effects of radar performance will be explored.

Basic Electronic Warfare Modeling | GTPE

Electronic warfare (EW) simulation is a serious game of make-believe. A situation is artificially created so that equipment can be tested and operators can be trained under realistic conditions - without both the expense and danger associated with training in the real world.
