The ether of life. Tesla said that the ether is acted upon by the life-giving creative force. The ether is thrown into "infinitesimal whirls" ("micro helices") at near the speed of light, becoming ponderable matter. Then the force subsides and motion ceases. Matter reverts to the ether (a form of "atomic decay").

Tesla And The Aether Infinite Energy

Tesla's ether was rigidified by rapidly varying electrostatic forces, and was thereby involved in gravitational effects, inertia, and momentum, especially in the space near earth, since, as explained by Tesla, the earth is "...like a charged metal ball moving through space", which creates the enormous, rapidly varying electrostatic forces which diminish in intensity with the square of the distance from earth, just like gravity.

Dynamic Theory of Gravity by Nikola Tesla | Aether Force

There are a lot of articles on the net that mention Nikola Tesla's ether (aether) theories, such as this quote: Only the existence of a field of force can account for the motions of the bodies as

observed, and its assumption dispenses with space curvature. All literature on this subject is futile and destined to oblivion.

In 1901 Nikola Tesla was one the first to identify “radiant energy.” Tesla says that the source of this energy is our Sun. He concluded that the Sun emits small particles, each carrying so small of a charge, that they move with great velocity, exceeding that of light. Tesla further states that these particles are the neutron particles.

Tesla's aether concept. It is important to correctly comprehend Tesla's unique aether concept as several popular researchers in the field have not done. Tesla's aether is analogous to the classical aether “gas” theory. Theory structure. Tesla said he had fully developed his Dynamic Theory of Gravity and “worked it out in all the details”.

Nikola Tesla: UFO and Dynamic Theory of Gravity | Genius

The main energy source as claimed by Tesla was the aether which is all around us just as air is . The only mystery remaining is how did Tesla manage to tap into the energy provided by the aether . It's hardly surprising that he was very cryptic and secretive about this line of his work considering how his enemies would stop at nothing to destroy anything he unveiled that was a threat to their vested interests
