100 sided dice. When we think of a die, a small cubic object comes to mind which, when dropped on a flat surface, shows one of its possible faces. A traditional die has six faces, and on each of its faces, numbers from 1 to 6. Rolling the die implies that chance will show a whole number from one to six, and that the odds of each of those numbers coming up are the same, due to the geometric shape, as long as the die is perfect.
