### Society of Petroleum Engineers

Petroleum engineering. Petroleum engineering is concerned with activities relating to the evaluation, development and production of hydrocarbons. Over the next few years, oil and gas output is predicted to rise but current economic conditions, increased cost of extracting natural resources and a reduction in new oilfield discoveries, mean that the oil and gas industry faces many challenges.

**Petroleum Engineering Career Guide | MyPort**

Petroleum engineers are involved in all parts of the oil and gas production process, from field evaluation through to exploration, extraction and development. Petroleum engineers are divided into a number of different roles: reservoir engineers – engineers who decide where to place an oil well. production engineers – engineers who manage how the well and oil rig work together.
