2000 Yamaha Waverunner Gp1200 760

As we've already discussed, the 760 was released with the same hull as the GP1200. The main difference was that the GP760's engine is a 745cc, 2-cylinder, 2-stroke power plant. In spite of the lower displacement and the 2-cylinders, the Yamaha GP760 produces no less than 90HP.

Yamaha GP800 & GP760 For Sale: Are They Still Worth Buying ...

Regarding the GP1200 engine, it's a 1.131cc, 3-cylinder, 2-stroke

Yamaha marine engine. Thanks to this power source, the Yamaha GP1200 offers an amazing 135HP. Taking into account today's PWCs horsepower ratings, this performance doesn't seem outstanding at all. But don't forget that the GP1200 was manufactured around the early 2000s!

Yes, Yamaha makes the GP800 and Gp1200 as well. The GP760 was discontinued and replaced with the

XL700 3 seater. The GP800 and Gp1200 have the same hull as the GP760. It wasn't until 2000, when the Gp1200R came out, did Yamaha change their hulls.

The GP800 rated horsepower claims from Yamaha are optimistic, (if not delusional...) The 1200 of the same era is a non power valve, and it has a good history for reliability. I own all

three (760,800 and 1200), and the 1200 is a different ski - SO much more fun to ride than the other two.
