The new iPhone 5 display has a new aspect ratio and a new resolution (640 x 1136 pixels). What is required to develop new or transition already existing applications to the new screen size? What should we keep in mind to make applications "universal" for both the older displays and the new

widescreen aspect ratio? ios iphone screen iphone-5

How to develop or migrate apps for iPhone 5 screen resolution?

Other devices — such as iPhone SE and iPad Air — have a rectangular display. If your app runs on a specific device, make sure it runs on every screen size for that device. In other words, an iPhone-only app must run on every iPhone screen size and an iPad-only app must run on every iPad screen size.
