The first part highlights Photoshop CS5's new features, another Lightroom 3's, and the third for Adobe Camera Raw (ACR, now version 6) and Lightroom 3 together. ACR and Lightroom 3 are essentially the same and are Adobe's way of approaching non-destructive editing and raw image converting. If you look at the user interface for both they do look and feel different (the user interface for Lightroom 3's raw editor is found in its Develop module), but the tools and functionality are the ...
