Can We Detoxify the Discourse? | RealClearPolitics

Media discourse can be widely understood as any way in which the media — including news outlets, publishers, and others — frames certain issues and generates discussions among the public. In some sense, all media furthers some sort of discourse simply as a function of its essential nature. Another way of saying this is that media wouldn't be media if it didn't disseminate information with a certain slant or through a particular lens.

For audiences of conservative media, information about the pandemic was communicated not through politically neutral public health authorities but was instead filtered and propagated through media channels shaped by many decades of partisan politics. The mainstream media coverage of the pandemic that got the most attention was highly critical of the president's response, which may have deepened the politically-rooted differences in perspectives on the pandemic.
