Sack Your Boss

The Ultimate Guide To Escape Your 9-5 *Rodwellbeing Publishing*

Have you reached that point in your job where you're thinking 'enough is enough'?

In this book, Christian Rodwell, the Founder of Escape The Rat Race, shows that there is a proven process anyone who is currently employed but looking to start their own business can follow: 'The choices for someone wishing to exit a corporate 9-5 job and start a new business are numerous and this can easily lead to overwhelm, confusion....and over-analysing the options for so long that you end up taking no action at all. Finding enough time to fit your new business around your full time job and family commitments will also be a challenge, which is why I've dedicated an entire chapter to show you ways to overcome this.' Not everyone who wishes to quit the rat race and start a business knows exactly what business would be best suited to them initially. This book will help you to get to know yourself better, identifying your motives for wanting to sack your boss and answering the question, 'what would I would love to do each day if money were no object?'. Christian Rodwell has been through all of these challenges himself, and has worked with over 1000 other '#escapees' who are on the same journey. Christian illustrates within this book his process for helping such individuals map out their very own '9-5 escape plan' - 'The Five Step Freedom Formula™'. 'I'll guide you through the steps you need to take before you identify what your winning strategy is for starting a business you love. At the end of this book, you'll have all of the answers ready to complete your very own 90 Day Escape Plan, a specific and personalised personal development plan which I have put together for you.' It can be downloaded for free, by visiting: www.fivestepfreedomformula.com

Does this reflect how you feel right now about your current work/life balance? ★ You feel trapped in a cycle of getting up to go to work each day, trading your time for money ★ You lack fulfilment doing work you're not passionate about in order to make other people more successful ★ You're frustrated because you know that you are capable of achieving greatness, but feel as if your current situation is holding you back ★ You've been struggling to get ahead financially and break free of bad debt ★ You're fed up with standing on busy platforms wrestling for space with the rest of the herd every morning ★ You're fed up with the internal company politics which you have to endure every day ★ You feel limited by your earning potential and question if you're ever going to be in a position where you feel truly wealthy ★ You never have any spare time to yourself to do the things you really want to or spend enough time with the people that mean the most to you ★ You're fed up with having to ask permission from somebody else to allow you time off to do what's important to you ★ You want to explore the world and be able to generate an income without being tied to any one specific location ★ You know that there is a better quality of life waiting for you Did you answer 'yes' to any of the above? 'If escaping the rat race is something you want to do, then take heart. This is something I have done for myself and I work with people every week who are in the process of doing the same.' Based around a proven five-step formula, the author guides readers through every step of gaining true clarity on their life goals, focusing their attention on achieving them - and making that bold transition from frustrated employee to unstoppable entrepreneur. 'They'll face everything from their deepest fears and hesitations, to a true and frank appraisal of their finances - all intended to cut out fluff so they can crack on with productively taking action on building that business they've always dreamed of. The 90-day "escape plan" I share is unlike anything they've seen before, but I

can almost guarantee it will change their life'.

Go Put Your Strengths to Work

Six Powerful Steps to Achieve Outstanding Performance *Simon and Schuster*

Companies routinely claim that 'Our People Are Our Greatest Asset', but research data shows that in practice most people do not actually use their assets much at work. This books aims to change that. When employees learn how to truly apply their greatest strengths at work, they turbo-charge their career potential and everybody wins. Companies find that their employees are more productive, their teams are more effective, their organization is more innovative and, accordingly, their customers are more engaged. In *FIRST, BREAK ALL THE RULES*, Marcus Buckingham proved the link between engaged employees and more profitable bottom lines and highlighted great managers as the catalyst. In *NOW, DISCOVER YOUR STRENGTHS* he explained how to sort through your patterns of wishes, abilities, thoughts and feelings and, with the help of a web-based profile, identify your five most dominant talents. In *GO, PUT YOUR STRENGTHS TO WORK* he shows you how to take the crucial next step. Wine to Water

How One Man Saved Himself While Trying to Save the World *Penguin*

The captivating story of an ordinary bartender turned humanitarian who's changing the world through clean water. Doc Hendley never set out to be a hero. A small-town bartender, Doc loved his Harley, music, and booze. Then he learned about the world's water crisis, and decided to help by hosting fundraisers. But he wanted to do more and soon found himself traveling to one of the world's most dangerous hot spots: Darfur, Sudan. Doc was immediately cast into a crisis zone. The Sudanese government was wiping out entire villages through horrific state-sponsored genocide—and one of the chief weapons was water. By dumping corpses in water sources and shooting up water bladders, Janjaweed terrorists doomed hundreds of thousands of citizens to dehydration, disease, and death. At just twenty-five years old, Doc was inexperienced, untrained, and in constant danger—but he stepped up to save lives. Alternatively begging international organizations for funding and dodging trigger-happy Janjaweed, Doc began drilling and repairing wells, bringing drinking water to those who desperately needed it. *Wine to Water* is his story about braving tribal warfare in far-flung regions of the world, and an inspirational tale of how one ordinary person can make a difference.

City of Orange *Penguin*

A man wakes up in an unknown landscape, injured and alone. He used to live in a place called California, but how did he wind up here with a head wound and a bottle of pills in his pocket? He navigates his surroundings, one rough shape at a time. Here lies a pipe, there a reed that could be

carved into a weapon, beyond a city he once lived in. He could swear his daughter's name began with a J, but what was it, exactly? Then he encounters an old man, a crow, and a boy—and realizes that nothing is what he thought it was, neither the present nor the past. He can't even recall the features of his own face, and wonders: who am I? Harrowing and haunting but also humorous in the face of the unfathomable, David Yoon's *City of Orange* is a novel about reassembling the things that make us who we are, and finding the way home again.

How Teams Become Brilliant Together *Penguin*

Are You Scaring Your People into Mediocrity? All leaders want to outperform, outsell, and outinnovate the competition. And most teams are fully capable of doing so. The problem: we consistently say and do things that spark unconscious fears and keep our people stuck in their Critter State. This primitive fight, flight, or freeze mode distills all decision making to one question: What will keep me safest? Lying low, sucking up, procrastinating, and doing a good enough job may keep employees breathing, but it doesn't make for vital organizations. Leaders have to get their people unstuck and fully engaged, replacing their old, limiting mental patterns with new patterns that foster optimal performance. New York Times bestselling author and applied neuroscience expert Christine Comaford knows what it takes to move people from the Critter State into the Smart State, where they have full access to their own creativity, innovation, higher consciousness, and emotional engagement. When an entire culture maintains that state, it becomes what she calls a SmartTribe. Focused. Accountable. Collaborative. Courage Is Calling

Fortune Favors the Brave *Penguin*

The instant New York Times, Wall Street Journal, and USA Today Bestseller! Ryan Holiday's bestselling trilogy—The Obstacle Is the Way, Ego is the Enemy, and Stillness is the Key—captivated professional athletes, CEOs, politicians, and entrepreneurs and helped bring Stoicism to millions of readers. Now, in the first book of an exciting new series on the cardinal virtues of ancient philosophy, Holiday explores the most foundational virtue of all: Courage. Almost every religion, spiritual practice, philosophy and person grapples with fear. The most repeated phrase in the Bible is "Be not afraid." The ancient Greeks spoke of phobos, panic and terror. It is natural to feel fear, the Stoics believed, but it cannot rule you. Courage, then, is the ability to rise above fear, to do what's right, to do what's needed, to do what is true. And so it rests at the heart of the works of Marcus Aurelius, Aristotle, and CS Lewis, alongside temperance, justice, and wisdom. In *Courage Is Calling*, Ryan Holiday breaks down the elements of fear, an expression of cowardice, the elements of courage, an expression of bravery, and lastly, the elements of heroism, an expression of valor. Through engaging stories about historic and contemporary leaders, including Charles De Gaulle, Florence Nightingale, and Dr. Martin Luther King Jr., Holiday shows you how to conquer fear and practice courage in your daily life. You'll also delve deep into the moral dilemmas and courageous acts of lesser-known, but equally as important, figures from ancient and modern history, such as Helvidius Priscus, a Roman Senator who stood his ground against emperor Vespasian, even in the face of death; Frank Serpico, a former New York City Police Department Detective who exposed police corruption; and Frederick Douglass and a slave named Nelly, whose fierce resistance against her captors inspired his own crusade to end slavery. In a world in which fear runs rampant—when people would rather stand on the sidelines than speak out against injustice, go along with convention than bet on themselves, and turn a blind eye to the ugly realities of modern life—we need courage more than ever. We need the courage of whistleblowers and risk takers. We need the courage of activists and adventurers. We need the courage of writers who speak the truth—and the courage of leaders to listen. We need you to step into the arena and fight.

The Invisible History of the Human Race

How DNA and History Shape Our Identities and Our Futures *ReadHowYouWant.com*

A New York Times Notable Book of 2014 We are doomed to repeat history if we fail to learn from it, but how are we affected by the forces that are invisible to us? What role does Neanderthal DNA play in our genetic makeup? How did the theory of eugenics embraced by Nazi Germany first develop? How is trust passed down in Africa, and silence inherited in Tasmania? How are private companies like Ancestry.com uncovering, preserving and potentially editing the past? In *The Invisible History of the Human Race*, Christine Kenneally reveals that, remarkably, it is not only our biological history that is coded in our DNA, but also our social history. She breaks down myths of determinism and draws on cutting - edge research to explore how both historical artefacts and our DNA tell us where we have come from and where we may be going.

About Time: A History of Civilization in Twelve Clocks *W. W. Norton & Company*

A captivating, surprising history of timekeeping and how it has shaped our world. For thousands of years, people of all cultures have made and used clocks, from the city sundials of ancient Rome to the medieval water clocks of imperial China, hourglasses fomenting revolution in the Middle Ages, the Stock Exchange clock of Amsterdam in 1611, Enlightenment observatories in India, and the high-precision clocks circling the Earth on a fleet of GPS satellites that have been launched since 1978.

Clocks have helped us navigate the world and build empires, and have even taken us to the brink of destruction. Elites have used them to wield power, make money, govern citizens, and control lives—and sometimes the people have used them to fight back. Through the stories of twelve clocks, *About Time* brings pivotal moments from the past vividly to life. Historian and lifelong clock enthusiast David Rooney takes us from the unveiling of al-Jazari's castle clock in 1206, in present-day Turkey; to the Cape of Good Hope observatory at the southern tip of Africa, where nineteenth-century British government astronomers moved the gears of empire with a time ball and a gun; to the burial of a plutonium clock now sealed beneath a public park in Osaka, where it will keep time for 5,000 years. Rooney shows, through these artifacts, how time has been imagined, politicized, and weaponized over the centuries—and how it might bring peace. Ultimately, he writes, the technical history of horology is only the start of the story. A history of clocks is a history of civilization.

Explore how entrepreneurial thinking can dramatically improve your work, life and relationships. Having the drive, ambition and inspiration to start a new business takes a special mind-set and self-confidence—think Steve Jobs, Elon Musk, Mark Zuckerberg. It's no wonder that we regard successful entrepreneurs as modern-day magicians, transforming sometimes-radical ideas into global brands that change the way we live our lives. But what if that spirit and drive were applied to the world outside of business start-ups? An entrepreneur seeks to build something from nothing, to take an inspired idea and make it a reality. In *How to Think Like an Entrepreneur*, Philip Delves Broughton will explore what it takes to be a successful entrepreneur—the ability to disrupt the status quo and generate fresh perspectives—and ultimately lead us to the heart of great entrepreneurial thinking: an understanding of our deepest human needs. By harnessing the passion, verve and limitless imagination of an entrepreneur, this book will show you new ways to improve your business, but also your life and relationships.
