The Difference Between Enterprise Architecture and ...

Enterprise architecture can be
conceptually divided into different
architectural layers that involve Business
Architecture and IT Architecture (Data,
Application and Technology
Architecture). Solution architecture then
takes a problem, and proposes building

blocks to solve it. It often reuses other elements made available by the Enterprise Architecture (Enterprise Building Blocks, Enterprise Capabilities, Architectural standards and guidelines)

Enterprise Architects vs Solution Architects vs Domain ...

When comparing all three IT architects, the distinction between an enterprise architect vs. solution architect usually creates the biggest confusion. However, each architect has a well-defined set of tasks that shouldn't overlap too much with the responsibilities of the other two.

Enterprise Architect vs. Solution Architect vs. Technical ...

Enterprise architects are best known for taking the "50,000-foot view" of a

project. A solutions architect zones in on the details. Solution architecture concerns itself with the technical decisions involved in organizing and implementing the solution. It then compares them to business outcomes.

Enterprise vs. Solution vs ... - Architecture Center

As a solutions architect you tend to look at how to apply the right (or newest, or coolest) technology to a problem. But as an Enterprise Architect you often have to apply the right technology to your team.

Four Key Differences Between a Solution Architect and an ...

Solution Architects: the project managers Typically, a solution architect is capable of doing everything that a

technical architect does, but with a difference. While technical architects display in-depth technical knowledge and have a hands-on approach, they are not expected to provide strategic direction.

The Key Difference between IT Architect Roles: Technical ...

Enterprise and solution architects don't design buildings, cities or other concrete structures. Their concern is the design of business activity systems in which human and computer actors perform processes to deliver services. They work to extend and improve business roles and processes that create and use data that is or can be digitized.

The business planning context -

Enterprise and Solution ...

The difference between solution architect and enterprise architect lies in the scope of responsibilities. While the solution architect's authority is limited by the project they are assigned to, the enterprise architect (as the name suggests) must take a broader view and check whether the solution strategy chosen by the solution architect is in accord with the company's mission.

Technical Architect vs Solution Architect vs Enterprise ...

There is something that I call "the orthodoxy" (or Good Old-Fashioned Enterprise Architecture—GOFEA; see GOFAL), which says that enterprise architecture is about high level strategic issues, whereas—say—solution

architects are more about details and technology. Implicitly, this says “enterprise architecture is about high level and strategy only.”

The Enterprise Solution Architect becomes a member of the project Solution Architects team and is responsible for the system integration architecture where the solution requires integration between enterprise systems

as well as be responsible for providing future state system architecture guidance to help the project Solution Architect make decisions on which systems to commit to using in the solution.

Enterprise Architect vs Solution Architect - dbj(org);

Enterprise architects and solution architects have very different purposes. They are highly complimentary in that solution architects focus on delivery of solutions, and enterprise architects focus on supporting them by participating on their teams and being involved in any direction and leadership activities.

What does an enterprise architect do? - CareerExplorer

A solutions architect is responsible for creating a comprehensive architecture for a software solution and providing strategic direction throughout the development process. This person needs to ensure that the new solution fits into the existing enterprise architecture from the technical, business, user, and other perspectives.

What is a Solutions Architect's Role: Complete Guide
