The heaven-to-hell principle (often abbreviated to ad coelum) has been influential but also chipped away at incrementally in the centuries since it was coined. Up in the Air When the first hot air balloon took to the skies in 1783, people began to realize that ad coelum could lead to absurdly trivial trespass violations when a traveler simply passes over someone's land.

Notably, in 1994, when they were about to cover the bore-hole which had reached a depth of thirteen kilometres, a strange

noise emerged from the depths of the planet. Those who heard it unanimously asserted that the noise could only be that of 'the cries of sinners in the pit of hell'.
