Konrad Lorenz, Classical Ethology, and Imprinting. Compiled from articles on Britanica.com. Lorenz, Konrad Vienna, Austria. 1903-1989. Austrian zoologist, founder of modern ethology, the study of animal behaviour by means of comparative zoological methods. His ideas contributed to an understanding of how behavioral patterns may be traced to an evolutionary past, and he was also known for his work on the roots of aggression.

Konrad Lorenz, Classical Ethology, and Imprinting

Konrad Zacharias Lorenz was an Austrian zoologist, ethologist, and ornithologist. He shared the 1973 Nobel Prize in Physiology or Medicine with Nikolaas Tinbergen and Karl von Frisch. He is often regarded as one of the founders of modern ethology, the study of animal behavior. He developed an approach that began with an earlier generation, including his teacher Oskar Heinroth. Lorenz studied instinctive behavior in animals, especially in greylag geese and jackdaws. Working with geese, he investi

Konrad Lorenz - Wikipedia

Konrad Lorenz, (born Nov. 7, 1903, Vienna, Austria—died Feb. 27, 1989, Altenburg), Austrian zoologist, founder of modern ethology, the study of animal behaviour by means of comparative zoological methods.

Konrad Lorenz | Austrian zoologist | Britannica

Konrad Lorenz (Konrad Zacharias Lorenz) was born on November 7, 1903 in Vienna, Austria. As a little boy, he loved animals and had a collection that included fish, dogs, monkeys, insects, ducks, and geese. His interest in animal behaviour was intense. When he was 10 years old, Lorenz became aware of the existence of the Theory of Evolution through reading a book by Wilhelm Bölsche in which he was fascinated by a picture of an Archaeopteryx.

Konrad Lorenz biography - imprinting

Ethology thus spans between and overlaps with the ever-widening circles of ecol ogy over the eons and the ever-narrowing focus of physiology of the neurons. Another reason why the history of ethology needs perspectives is the recency of its acceptance. For such an obviously major aspect of
